

MATHS YEAR 2

Practice 3 Addition with Regrouping in Tens

1. Add and regroup the tens.
Show your workings.

Example

$$534 + 283 = ?$$

First, add the ones.

$$4 \text{ ones} + 3 \text{ ones} = \underline{7} \text{ ones}$$

Then, add the tens.

$$3 \text{ tens} + 8 \text{ tens} = \underline{11} \text{ tens}$$

Regroup the tens.

$$11 \text{ tens} = \underline{1} \text{ hundred } \underline{1} \text{ ten}$$

Lastly, add the hundreds.

$$1 \text{ hundred} + 5 \text{ hundreds} + 2 \text{ hundreds} \\ = \underline{8} \text{ hundreds}$$

$$\text{So, } 534 + 283 = \underline{817}.$$

Write $534 + 283$
in this way.
Then, add.

$$\begin{array}{r} 1 \\ 534 \\ + 283 \\ \hline 817 \end{array}$$

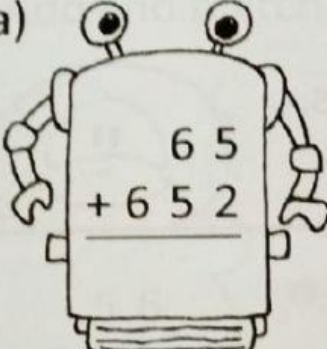

$$\begin{array}{r} \text{(a)} \quad 462 \\ + 175 \\ \hline \end{array}$$

$$\begin{array}{r} \text{(b)} \quad 648 \\ + 161 \\ \hline \end{array}$$

$$\begin{array}{r} \text{(c)} \quad 549 \\ + 280 \\ \hline \end{array}$$

2. Add.

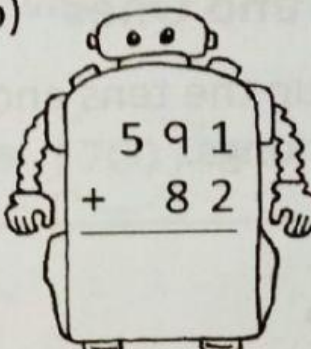

(a)

A robot with two antennae and a rectangular body. On its chest is a math problem. Below the problem is a horizontal line for the answer.

$$\begin{array}{r} 65 \\ + 652 \\ \hline \end{array}$$

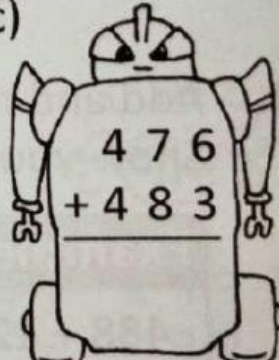

(b)

A robot with a rounded head and a rectangular body. On its chest is a math problem. Below the problem is a horizontal line for the answer.

$$\begin{array}{r} 591 \\ + 82 \\ \hline \end{array}$$

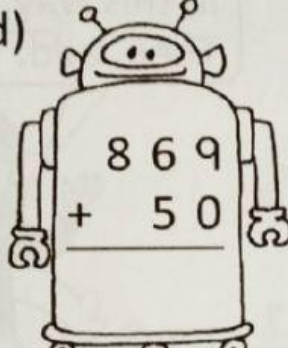

(c)

A robot with a triangular head and a rectangular body. On its chest is a math problem. Below the problem is a horizontal line for the answer.

$$\begin{array}{r} 476 \\ + 483 \\ \hline \end{array}$$

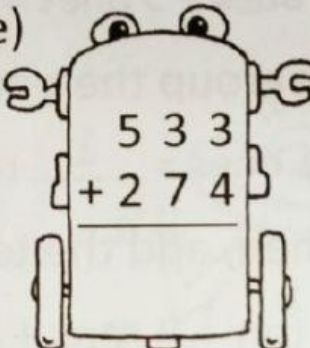

(d)

A robot with a rounded head and a rectangular body. On its chest is a math problem. Below the problem is a horizontal line for the answer.

$$\begin{array}{r} 869 \\ + 50 \\ \hline \end{array}$$

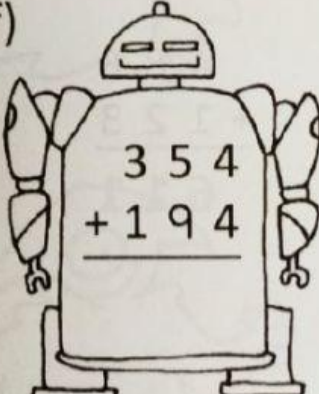

(e)

A robot with a rounded head and a rectangular body. On its chest is a math problem. Below the problem is a horizontal line for the answer.

$$\begin{array}{r} 533 \\ + 274 \\ \hline \end{array}$$

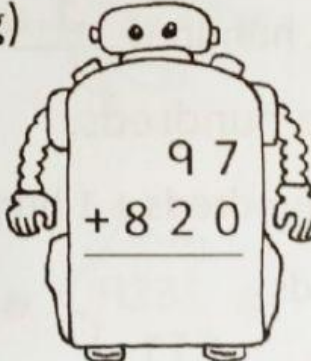

(f)

A robot with a rectangular head and a rectangular body. On its chest is a math problem. Below the problem is a horizontal line for the answer.

$$\begin{array}{r} 354 \\ + 194 \\ \hline \end{array}$$

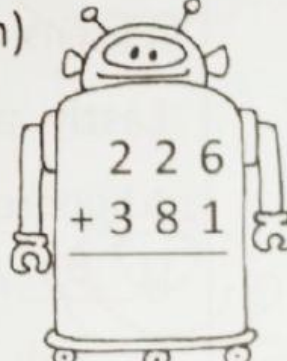

(g)

A robot with a rounded head and a rectangular body. On its chest is a math problem. Below the problem is a horizontal line for the answer.

$$\begin{array}{r} 97 \\ + 820 \\ \hline \end{array}$$

(h)

A robot with a rounded head and a rectangular body. On its chest is a math problem. Below the problem is a horizontal line for the answer.

$$\begin{array}{r} 226 \\ + 381 \\ \hline \end{array}$$
