Dear Mr. Smith,

I really liked your presentation on saving energy. I also think we use too much energy. I know we can do better. We need to save as much energy as we can. I liked one of your ideas best. We should turn our air conditioners down in the summertime. Air conditioners use lots of energy! Fans use much less energy. I also think we need to turn off the lights when we don't need them.

Thanks so much for speaking,

Sarah
