Why not take up Photography?

Get a digital camera as iPhone pictures with an Instagram filter can only take you so far. Getting into digital photography will give you a project to dive into, and if you become really good at it, you can use your new skill for extra cash on the side.

To get started, find a digital camera you're comfortable with. (The Sony NEX-5R is an excellent digital camera for beginners.) Once you're familiar **9.** ..... your first camera, you can graduate **10.** ..... different, separate lenses that **11.** ..... be attached for higher-quality photos. Sign **12.** ..... for a photography class in your area or online to get a handle on the basics. Then, choose one kind of environment to start photographing — lighting outdoors will be different than lighting indoors — and begin learning firsthand.

For online resources, check out CreativeLive.com for free photography courses. You can also enrol on a free photography course on Udemy.com, which is ideal for beginners.
