- 1.- You need to know the university life is part of becoming a professional.
- 2.- You have to know when people in USA get an adult they have to move out of their parents' house.

Related to the values:

Keep this reflection: All experiences that you live in each stage is important and you have to value.

ACTIVIDADES:

1. Fill in the blanks with 1-3 words to complete the sentences according to the reading.

When you are 18 years old in the United States, you are considered a legal adult. This means that for many people, it is time to move out of their parents' house. In most cases, young adults go to the university. This university campus can be an hour away from your home, or several hours away across the country in another state. No matter where it is, it is the first time that young people live on their own. At most university campuses across the United States, there are dormitories, or dorms, where students can live. These are large buildings that can have several floors and include many rooms. Usually rooms are shared between two students. They have two beds and two desks, but no bathroom. Most of the time one bathroom is shared by many rooms. There are cafeterias in these buildings that serve all types of food for breakfast, lunch, and dinner. Student housing can be very expensive, costing thousands of dollars per semester, unless you have financial assistance from the government or private scholarships. The university years in the United States, like in many countries of the world, require a lot of hard work, but there is also time for fun. There are several clubs and organizations that students can join, including sports, arts, and theater groups. There are also cultural events. Some say that they are the best years of your life!
