

Scientific Notation (A)

Convert each ordinary number to scientific notation.

$3,900 = \quad \times 10$

$0.000000038 = \quad \times 10$

$0.0094 = \quad \times 10$

$0.0000032 = \quad \times 10$

$0.00945 = \quad \times 10$

$61,490,000 = \quad \times 10$

$9,400 = \quad \times 10$

$181,000,000 = \quad \times 10$

$1,060,000 = \quad \times 10$

$5,800,000 = \quad \times 10$

$5,729 = \quad \times 10$

$7,907,000 = \quad \times 10$

$74,920 = \quad \times 10$

$63,000 = \quad \times 10$

$0.0008 = \quad \times 10$

$0.0000028 = \quad \times 10$

$0.00064 = \quad \times 10$

$317,300,000 = \quad \times 10$

$0.000000026 = \quad \times 10$

$0.000054 = \quad \times 10$
