

DNA Structure: Summary Notes

1) All nucleic acids are made of building blocks called

_____.

2) A nucleotide is made of three sub-units. List those below:

- _____
- _____
- _____

3) The name of the sugar in DNA is called _____.

4) The backbone of DNA is made of _____ and

_____.

5) The rungs of the DNA ladder are made of _____.

6) List the 4 nitrogen bases found in DNA

- _____
- _____
- _____
- _____

7) In DNA the nitrogen bases form pairs. List the pairings below:

- _____ pairs with _____
- _____ pairs with _____
