

DNA Structure: Summary Notes

1) All nucleic acids are made of building blocks called _____.

_____.

2) A nucleotide is made of three sub-units. List those below:

_____.

_____.

_____.

3) The name of the sugar in DNA is called _____.

4) The backbone of DNA is made of _____ and _____.

_____.

5) The rungs of the DNA ladder are made of _____.

6) List the 4 nitrogen bases found in DNA

_____.

_____.

_____.

_____.

7) In DNA the nitrogen bases form pairs. List the pairings below:

_____ pairs with _____.

_____ pairs with _____.
