

Multiply Mixed Numbers

Find the area of the park (in square miles) by multiplying the mixed numbers.

Step 1. Make both mixed numbers into improper fractions.

| | |
|---|---|
| $2 \frac{1}{4}$ miles | $1 \frac{1}{2}$ miles |
| $\frac{6}{4}$ $\frac{8}{4}$ $\frac{9}{4}$ | $\frac{1}{2}$ $\frac{3}{2}$ $\frac{2}{2}$ |

Step 2. Multiply the two improper fractions. Choose the correct total below. $\frac{27}{8}$ $\frac{24}{8}$ $\frac{12}{8}$

Step 3. Divide to convert the improper fraction to a mixed number. Type your answer in the box.
