LICEO ALBONOR BILINGUAL EDUCATIONAL UNIT

SOCIAL STUDIES 2ND PARTIAL 2ND QUIMESTER TEST

PERIOD 2021-2022

STUDENT'S NAME: _____

GRADE: _____

TEACHER: Mrs. Lourdes Velez

DATE: _____

RECOMMENDATIONS

1. The online evaluation lasts 40 minutes.
2. Read carefully each statement contained in the online assessment
3. Avoid any attempt of academic dishonesty, in case of incurring in it, it will be sanctioned according to the LOEI articles 223 - 226.
4. During the test, if you have questions, write them in the Zoom chat so that the teacher can help you. Do not activate your microphone during the online assessment.
5. Upload the procedures requested in the assessment in the assignment provided on the Idukay platform.
6. Be clear and specific when writing your answers.

Good luck!

IMMUNE SYSTEM

1.- LABEL THE PICTURE OF THE ORGANS OF THE IMMUNE SYSTEM. (2. 50 MARKS)

TONSILS | SPLEEN | WHITE BLOOD CELLS | LYMPH NODES | THYMUS

_____

_____

_____

_____

_____

LIVEWORKSHEETS

VIRUSES CAUSE DISEASES IN THE HUMAN BODY

2.- WRITE NUMBERS 1,2,3, AND 4 TO SHOW IN ORDER THE STEPS THAT A VIRUS TAKES WHEN IT ATTACKS THE HUMAN BODY. (2 MARKS)

____The virus duplicates in the cell

____The cell explodes, releasing the viruses into the body

____The virus attaches itself to the cell

____The virus enters the cell

3.- SELECT THE CORRECT ANSSWER. (2 MARKS)

1. Agents that cause disease are:

A. colds and flu

B. bacteria and viruses

C. vaccines and medicine

2. What are the main defenders of the body called?

A. red blood cells

B. white blood cells

C. yellow blood cells

3. Name TWO diseases that destroy the immune system?

A. HIV and Influenza

B. HIV and AIDS

C. AIDS and Colds

4. What does Alcohol do to the human body?

A. It makes it feel good

B. It decreases brain cell activity

C. It makes you stronger

4.- READ THE FOLLOWING STATEMENTS. CHOOSE WHETHER THE STATEMENT IS TRUE OR FALSE. (2 MARKS)

A) HIV is a disease that destroys the immune system. **TRUE** **FALSE**

B) Medicine helps the immune system fight off diseases. **TRUE** **FALSE**

C) All illnesses are caused by an infection. **TRUE** **FALSE**

D) Medicine is a drug that affects how the body functions. **TRUE** **FALSE**

LIVEWORKSHEETS

5.- READ THE NEXT TEXT ABOUT THE IMMUNE SYSTEM AND ITS FUNCTIONS AND COMPLETE USING THE CORRECT WORDS. USE WORDS ABOVE. (2 MARKS)

"**antibodies**"	heart disease	**tissues**	poisons	defenders

Organs, _____ and **cells** make up the **immune system**. Some **bacteria** and **viruses** which enter the body give off poisons.

Some **bacteria** release _____ that injure and kill the cells in our bodies. **Viruses** reproduce (makes more of itself) inside cells and destroy the cell.

Not all illnesses are caused by infections. Some people are born with illnesses such as certain forms of _____.

White blood cells are the main _____ of the body. When the body is infected (overrun by bacteria and viruses), the number of white blood cells increase. Some white blood cells **trap** bacteria causing poison from the bacteria to **kill** some of the white blood cells.

The dead blood cells form a yellow material called "**pus**". Some white blood cells make chemicals called _____. These antibodies destroy poisons made by bacteria.
