

Finding Missing Numbers

Solve the following questions. Please be sure to SHOW ALL WORKING.

1.) $14 + \square = 19$
 $\square =$
 $\square =$

2.) $11 + \square = 20$
 $\square =$
 $\square =$

3.) $\square - 12 = 7$
 $\square =$
 $\square =$

4.) $\square - 20 = 31$
 $\square =$
 $\square =$

5.) $\square + 33 = 54$

$$\square =$$

$$\square =$$

6.) $\square \times 8 = 16$

$$\square = \underline{\hspace{2cm}}$$

$$\square =$$

7.) $\square \times 9 = 63$

$$\square = \underline{\hspace{2cm}}$$

$$\square =$$

8.) $\frac{\square}{4} = 8$

$$\square =$$

$$\square =$$

9.) $\frac{\square}{13} = 5$

$$\square =$$

$$\square =$$

10.) $\square - 42 = 25$

$$\square =$$

$$\square =$$

11.) $\square \times 7 = 42$

$$\square = \underline{\hspace{2cm}}$$

$$\square =$$

12.) $\frac{\square}{6} = 3$

$$\square =$$

$$\square =$$

13.) $\square \times 12 = 60$

$$\square = \underline{\hspace{2cm}}$$

$$\square =$$

14.) $\frac{\square}{15} = 9$
 $\square =$
 $\square =$

15.) $\square - 32 = 14$
 $\square =$
 $\square =$
