Cheetahs

The cheetah is the **(0)** ..... land animal in the world. An adult cheetah can go **(28)** ..... 0 to 100km an hour in just three seconds. However, they can only run this fast for about a minute. After that they **(29)** ..... to stop for a rest.

(30) ..... wild cheetahs live in east and south west Africa. Water is often hard to find, **(31)** ..... cheetahs only need to drink **(32)** ..... every three to four days. Female cheetahs usually have three cubs. The cubs live with their mother **(33)** ..... they are two years old.

Cheetahs have excellent eyes and can see things **(34)** ..... are six kilometres away. They have long, black lines from the inside of each eye to the mouth. Scientists **(35)** ..... these lines work like sunglasses and help the cheetah see even better in the strong African sun.
