Read Mark's e-mail to his friend. Then do the exercises on the next page.

Dear Christopher,

How are you? I was glad to receive your letter and hear that you are happy in your new home in the small town of Sutton. To tell you the truth, I'd love to move away from the city, to a quieter place too, but my parents are happy in the city and they don't want to live anywhere else. The good thing is that they like taking holidays and we often visit nice places abroad. At the moment, we're on Rhodes, one of the most popular islands of Greece, and we're having a great time.

We came to Rhodes by boat two days ago. Unfortunately, the boat trip was not very pleasant. The weather was extremely bad. It was very windy and the waves were so big that my parents and I got sea-sick. When we arrived at the hotel, we were all so tired from the terrible trip that we decided to rest for the rest of the day. The second day we all felt better so after breakfast, we visited the old city of Rhodes. Do you know that there are big walls all around the old city? Walking on the city walls was amazing because we could see the whole town from up there. In the evening, we had dinner in a traditional restaurant in the old city. We all liked the food but my dad thought that the meal was expensive.

Today we're planning to go on a day cruise to Lindos. Lindos is a traditional village with beautiful white houses. When we get there, we're going to ride a donkey up to the ancient Acropolis of Lindos. At the top of the Acropolis, there is a temple of the goddess Athena and an old Byzantine church. It's a beautiful, sunny day today so I think we are going to enjoy ourselves.

I'd better stop writing now and get ready for our trip to Lindos. I'll send you another email when we get back to London. I'll also send you pictures from all the nice places of Rhodes.

Talk soon,

Mark

Read what Tim says about his Maths teacher, Mr. James.
Then do the exercises on the next page.

My name is Tim. This is my first year in high school. The lessons in high school are more difficult than those in the elementary school, but now all my teachers are very helpful and friendly. I like all of them, but my favourite teacher is Mr. James.

Mr James is my mathematics teacher. He really likes teaching and always comes to class with a pleasant smile. I am not the only one who likes Mr. James. All my classmates respect him and look forward to his lesson. He is also the most patient teacher I have ever had. When we do not understand what he says, he will explain it again until we have all understood it. He always gives us a lot of homework because he believes that homework helps us to learn better. Nobody complains about the homework, however.

Mr. James is also friendly outside the classroom and we can talk to him about our personal problems, too. He listens patiently to our problems and gives us good advice. I was a very shy person and it was difficult for me to talk to people. Mr. James found a way to help me with that. He encouraged me to become a member of the theatre club. I have played in several theatrical performances and although I am not a great actor, the experience has helped me to feel more confident about myself. I also feel more comfortable around other people and find it much easier to talk to them now. In fact, I am now quite popular in school and have quite a few friends. All thanks to Mr. James.

Mr. James is a great teacher. I hope that he will be my mathematics teacher next year, too.
