My favourite thing has to be my new tablet. I bought it last month with my own pocket money. It's really light and quite small, so I take it with me everywhere. I'm always using it for the sake of my study. My Tablet is an android based tablet. Because of being supported by 2.40 GHz Octa-core Max CPU with 8 GB RAM and 128 GB internal memory, my tablet is very suitable for my study. I can download and save a lot of learning applications. Beside , my tablet is completed with 5100 mAH lithium-ion polymer battery. This battery enables me to study for a long time. It is also equipped with good camera that is very useful to my study which takes really good photos. The colour of my tablet is black. It's really light and quite small because its size is 9 90 mm wide and 159,2 long. It's thickness is about 8,7 millimetres. I really love my tablet

Alvie	:	So, where do you get the best pizza in London ?
Fathi	:	No doubt about it, it has to be Pietro's Pizza ,my Mom said that it has the crispiest base ever.
Elly	:	No way! The pizzas in La Bella Napoli are the best ever! Just around the corner, are so much tastier ...and they've got more variety ....and the friendliest waiters!
Alvie	:	Yeah, I think she's right, Fathi. Its place is as cosy as Pietro's and it has much better quality than Pietro's Pizza. It is not the cheapest , but they're so good!
Fathi	:	All right then, yeah , La Bella Napoli is nearer than Pietro's. The cheese in La Bella Napoli isn't as good as the cheese in Pietro's Pizza, and for me it's all in the cheese!
Alvie	:	You could have pasta?
Fathi	:	Pasta in La Bella Napoli? They do the most disgusting pasta I've ever tasted. You should go to Pietro's Pizza if you want Pasta. It has the tastiest cheese.
Elly	:	All right!
