

## **SCIENCE GRADE 4**

**1. The movement of water from Earth's surface into the air and back again is the**

- A. water on earth
- B. water wheel
- C. water cycle

**2. The water cycle is important because it gives earth a constant supply of**

- A. salty water
- B. sandy water
- C. fresh water

**3. The change from liquid water to water vapour (a gas) is called**

- A. storage
- B. evaporation
- C. precipitation
- D. condensation
- E. none of above

**4. Water that falls to earth is called**

- A. storage
- B. evaporation
- C. precipitation
- D. condensation
- E. none of above

**5. The change from a gas to a liquid is called**

- A. storage
- B. evaporation
- C. precipitation
- D. condensation
- E. none of above

**6. A solid feature of Earth's crust is a**

- A. landslide
- B. landform
- C. earthquake

**7. Rocks and dirt moving rapidly down a slope is a**

- A. landslide
- B. landform
- C. earthquake

**8. A sudden shift in the Earth's crust causing the ground to shake is an**

- A. landslide
- B. landform
- C. earthquake

**9. Volcanoes begin in the layer below the Earth's crust called the**

- A. lava
- B. magma
- C. mantle
- D. chamber

**10. What cools and hardens, forming rock?**

- A. lava
- B. magma
- C. mantle

**11. Almost three-fourths of Earth's surface is covered with land.**

- A. true
- B. false

**12. Water exists as a**

- A. solid
- B. liquid
- C. gas
- D. all of above

**13. There is more fresh liquid water underground than on Earth's surface.**

- A. true
- B. false

**14. Most of the Earth's freshwater is:**

- A. frozen in glaciers and ice caps
- B. in liquid form in lakes and rivers
- C. water vapor in clouds

**15. Most of the water on Earth is**

- A. freshwater
- B. salty water

**16. Almost three-fourths of Earth's surface is covered with water.**

- A. true
- B. false

**17. Most of the water on Earth is salty water**

- A. true
- B. false

**18. About 97% of water on Earth is fresh water.**

- A. true
- B. false

**19. To conserve water means to**

- A. use water
- B. save water
- C. drink water

**20. We can conserve water by**

- A. fixing leaks
- B. turning the tap off when not using it
- C. installing rainwater tanks
- D. all of above
