adjective ending in -ar

circular

rectangular

adjective ending in -ical

spherical

biological

adjective ending in -al

Speaking tip

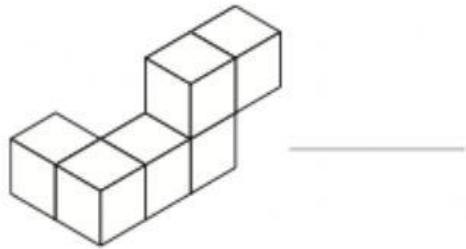

When a word changes from noun to adjective, the way you pronounce the word can change too, as the stress changes:

triangle *triangular*

rectangle *rectangular*

4 How much do you remember? Do the quiz!

1 How many cubes are there in this shape?

4 Draw an octagon.

2 What are these?

5 Name an object that's shaped like a sphere.

6 Unscramble this word: clenidry

3 What's the adjective form of 'triangle'?
