

## Unit 6: division

### Lesson 2: Division (2)

#### I. Vocabulary

Vocabulary	Vietnamese meaning
Quotient	<b>Thương</b>

#### II. Form

Form	Example
The <b>quotient</b> of <i>(number)</i> and <i>(number)</i> is <i>(number)</i>	<div style="border: 1px solid black; padding: 5px; display: inline-block;"><math>18 : 3 = 6</math></div> The <b>quotient</b> of eighteen and three is six.

#### III. Exercises

##### 1. Complete.

- a. What is the quotient of 72 and 8?

The quotient of 72 and 8 is 9.

- b. What is the quotient of 64 and 4?

The quotient of \_\_\_\_\_ and \_\_\_\_\_ is \_\_\_\_\_.

- c. What is the quotient of 108 and 9?

The quotient of \_\_\_\_\_ and \_\_\_\_\_ is \_\_\_\_\_.

- d. What is the quotient of 65 and 5?

The quotient of \_\_\_\_\_ and \_\_\_\_\_ is \_\_\_\_\_.

- e. What is the quotient of 57 and 3?

The quotient of \_\_\_\_\_ and \_\_\_\_\_ is \_\_\_\_\_.

## 2. Calculate.

$90 \text{ divided by } 9 = \square$

$24 \text{ divided by } 4 = \square$

$18 \text{ divided by } 6 = \square$

$27 \text{ divided by } 3 = \square$

$\text{Divide } 14 \text{ by } 2. \square$

$\text{Divide } 10 \text{ by } 10. \square$

$\text{Divide } 45 \text{ by } 5. \square$

$\text{Divide } 21 \text{ by } 7. \square$

## 3. Match.

24 divided  
by 3

$9 \times 3$

81 divided  
by 3

$2 \times 4$

$91 : 7$

9

$54 : 6$
