

LEMBAR KEGIATAN BELAJAR

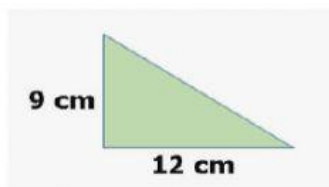

Materi : Luas Segitiga

Tujuan Belajar : Peserta didik dapat menghitung luas segitiga dengan tepat.

Amati video berikut :

Tentukan luas segitiga dari gambar !

1.

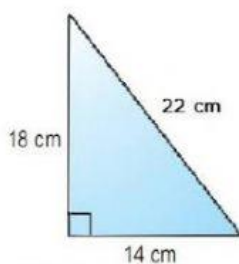

$$Ls = \frac{1}{2} \times \text{alas} \times \text{tinggi}$$

$$= \frac{1}{2} \times \dots \times \dots$$

$$= \frac{1}{2} \times \dots$$

$$= \dots \text{ cm}^2$$

2.

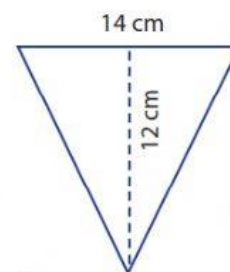

$$Ls = \frac{1}{2} \times \text{alas} \times \text{tinggi}$$

$$= \frac{1}{2} \times \dots \times \dots$$

$$= \frac{1}{2} \times \dots$$

$$= \dots \text{ cm}^2$$

3.

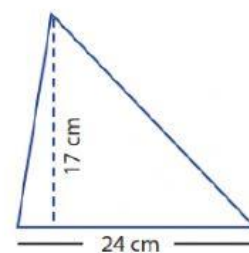

$$Ls = \frac{1}{2} \times \text{alas} \times \text{tinggi}$$

$$= \frac{1}{2} \times \dots \times \dots$$

$$= \frac{1}{2} \times \dots$$

$$= \dots \text{ cm}^2$$

4.

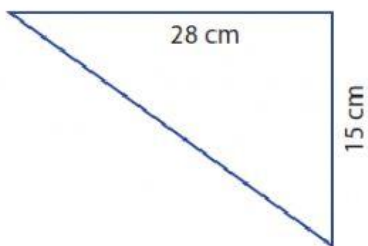

$$Ls = \frac{1}{2} \times \text{alas} \times \text{tinggi}$$

$$= \frac{1}{2} \times \dots \times \dots$$

$$= \frac{1}{2} \times \dots$$

$$= \dots \text{ cm}^2$$

5.

$$Ls = \frac{1}{2} \times \text{alas} \times \text{tinggi}$$

$$= \frac{1}{2} \times \dots \times \dots$$

$$= \frac{1}{2} \times \dots$$

$$= \dots \text{ cm}^2$$
