TV REVIEW

A. Listen and read the text

Sport

(A week in sport - Sport Channel)

It was a bad week for the England football team but the worse week for our tennis players! We had better results from our cyclists. They had the fastest times of all the teams and they won the competition in Manchester

Music

(Battle of the bands - Channel 7)

This week´s programme was a lot of better than last week. The bands were more exciting and the songs were more interesting, too. The best singer on the show was Aimee. Her band didn´t win but she had a nicer voice than the winner.

Films

(Avatar - Movie Channel)

Avatar was one of the most expensive films in the world and one of the longest. But I didn´t enjoy it very much. The special effects were amazing but the story was really boring. I thought it was the worst science fiction film of the year.

Reality TV

(Challenge for change - Chanel 9)

This was an interesting programme about teenagers with problems. They went on an expedition across the desert and faced difficult challenges. At the end of the programme they were all slimmer, fitter and happier.
