The Layers of the Earth

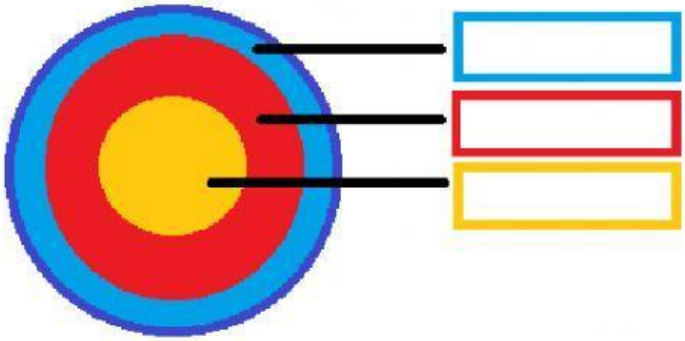

The Earth is made up of three layers:

CORE: This layer is in the centre of the Earth.

MANTLE: This layer is between the core and the crust.

CRUST: The crust is the outer layer. Plants and animals live on the crust.

1. Label the layers of the Earth.

2. True or false?

The core is in the centre of the Earth.	TRUE	FALSE
The mantle is the outer layer.	TRUE	FALSE
The crust is the outer layer.	TRUE	FALSE
Animals and plants live on the crust.	TRUE	FALSE
The oceans and the continents are in the mantle.	TRUE	FALSE
