

# Pollination

Put the steps in pollination in the correct order by numbering them 1 -5

- \_\_\_\_\_ The pollinator moves to another flower
- \_\_\_\_\_ Pollen sticks to the pollinator
- \_\_\_\_\_ A pollinator goes to drink nectar
- \_\_\_\_\_ The anther makes pollen
- \_\_\_\_\_ Pollen falls off the pollinator and onto the stigma

Drag the pictured under the correct heading		
Self Pollination	Cross Pollination	

Tick the 4 pollinators below
