LIVEWORKSHEETS

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best option to answer each of the following questions from 21 to 25.

Every one of us produces garbage of one kind or another. Some of the garbage is thrown into the sea. Some is burnt or buried under the ground. Every year we need to find about 800.000 cubic meters of empty land just to bury the garbage.

This is the same as filling one football stadium with garbage up to 20 meters high! This garbage damages the environment. Although a lot of garbage is buried in the ground, some of it gets blown about in the wind. Also, when garbage is bumt, **poisonous** gases are given off into the air. The garbage thrown into the sea will pollute the water.

What can we do about these problems? One very easy answer is to produce less garbage. We can recycle things made from glass and paper as well as tin cans. People can refuse to take the plastic bags from the shops and supermarkets by bringing with them their own bags or baskets when they go shopping.

The government should tell people about the dangers of garbage pollution. Education is perhaps the most important factor for keeping our environment healthy for the future.

Question 38: According to paragraph 2, poisonous gases are given off when we_____.

A. throw the garbage into the sea **B.** recycle the garbage

C. burn the garbage **D.** blow the garbage about

Question 39: According to paragraph 3, when we go shopping, we should_____.

A. use our own baskets or bags **B.** tell other people about recycling

C. buy less food **D.** ask for more plastic bags

A. environment **B.** garbage **C.** stadium **D.** ground

Question 42: The word "**poisonous**" in paragraph 2 is closest in meaning to_____.

A. toxic **B.** clean **C.** healthy **D.** pleasant

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best option to answer each of the following questions from 26 to 30.

Jeju Island is the largest island of South Korea, with an area of 1846 square kilometers. It is also one of the nine provinces of the country, and the smallest of all of them. It was formed as a result of a volcanic eruption. Jeju City is the capital of Jeju Island, and Halla Mountain is the key landmark of this island. It is also the tallest mouniain in South Korea, with a height of 6,400 feet. This island has a temperate climate and it rarely falls below freezing, not even in winter. It is home to almost 950 different insect species, 198 bird species, 17 mammal species, and 8 reptile species. Jeju Island is one of the new seven natural wonders of the world, and it has the finest lava tube system of caves in the world. The peak of the Halla Mountain looks like a giant crater, and is actually a dormant volcano, which means it has been inactive for years. There is a lake inside the crater, which is called Baengnokdam.

Question 43: Which of the following is **NOT TRUE** about Jeju Island?

A. Its climate is temperate.
