

Can you solve problems involving
Squares, **Square root**,
Cubes and **Cube roots** ?

Go figure
it out
smartly !

Easy question

Medium question

Challenging
question

1) Calculate the value of :

$$\begin{array}{ccccc} 8^2 & + & 10^2 & = & ? \\ \downarrow & & \downarrow & & \\ \square & + & \square & = & \square \end{array}$$

Easy question

Medium question

Challenging
question

2) Find the value of :

$$\begin{array}{ccccc} 5^2 & - & \sqrt{169} & = & ? \\ \downarrow & & \downarrow & & \\ \square & - & \square & = & \square \end{array}$$

Easy question
