Year:

Instructions

1. Write your full name and class
2. Choose the correct answer

Moves the sprite forward the number of steps in the direction the sprite is facing.

If touching the edge of the screen, the sprite's direction flips over

Moves the sprite to the mouse-pointer, a random position, or another sprite.

Glides the sprite to the location, taking as long as the specified amount of time.

This sets the rotation style of a sprite.
