There are three main traffic problems in my city.

Firstly, there are too many vehicles on the roads. This can lead to traffic jams especially in rush hours. Too many vehicles can also pollute the air. Secondly, the roads in our city are narrow and bumpy. Therefore, accidents can happen easily if we do not pay attention. The last but not least problem is that some people jump the lights. This can cause both accidents and traffic jams.

These are the three common traffic problems in our city, so we should be careful when driving on the roads.
