

**2** Read the five descriptions and write the name of the 3D shape.

• cone • cube • hemisphere • sphere • triangular prism

- 1 This shape is round all over and looks like a ball \_\_\_\_\_
- 2 This shape has six sides. Each side is a square and all the squares are the same size. It looks like a box. \_\_\_\_\_
- 3 This shape has a point at the top and a circle at the bottom. If you turn it upside down, you can have ice cream in it! \_\_\_\_\_
- 4 This shape is round on top and flat on the bottom. It looks like a ball cut in half or an upside-down bowl. \_\_\_\_\_
- 5 This shape has triangles at both ends and three flat sides in between \_\_\_\_\_
