This is a picture of our town one hundred years ago!

It (0) ...*was*... a quiet little town. There (1) any cars in the streets. There (2) only horses. The air (3) cleaner and people (4) happier.

There (5)many shops in High Street, just a bakery, a greengrocer's and a teashop. There (6) any computers or mobile phones then. There (7) only three telephones in the whole town! Everything (8) different one hundred years ago!
