

Sports in Great Britain (Unit 2)

- The British love sports. They play football, tennis, cricket and rugby. They also have unusual sports. One of them is bog snorkelling.
- In bog snorkelling people swim 110 meters in dark, cold and muddy water. They need a snorkel and a mask.
- There is even a Bog Snorkelling Championship. Many people come to Wales and enter the competition. The world record is 30 seconds.
- In my opinion, bog snorkelling is nasty and scary because you can't see there in a bog.
