Problem Solving

Solve each problem. Use the line plot.

8. **Be Precise** Sophia measured the lengths of her colored pencils and made a table. Use the data to make a line plot.

Pencil Color	Length in Inches
Red	4
Blue	3
Green	7
Yellow	9

9. What is the length of the shortest pencil? Explain.

10. **Higher Order Thinking** What are the lengths of the two pencils have a total length of 16 inches? Explain.

11. **Assessment Practice** Measure the length of the purple pencil in inches. Write the length below. Record your measurement on the line plot above in Item 8.

____ inches
