## Task 2: Read and choose T/F

The one I love most is my mother. She is tall and rather thin. She is kind and warm. She has got an oval face and long black hair. My mother loves us very much. She usually stays up late and gets up early to earn money and take care of us. In my house, I close to my mum best. I always talk to her about daily routine and share everything with her. After school, I usually help my mum do the housework. In our free time, we often go swimming together. At weekends, we often visit our grandparents.
