

Missing Factor

Name: _____

Date: _____

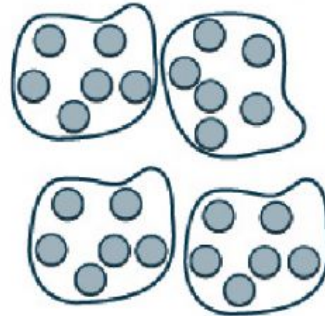

Example

$$6 \times \square = 24$$

Step 1: Draw 24 circles

Step 2: Group them by 6s

Step 3: Count the number of groups

$$6 \times 4 = 24$$

Complete each number sentence by putting in the missing factor

1. $2 \times \underline{\quad} = 18$	5. $12 \times \underline{\quad} = 24$
2. $3 \times \underline{\quad} = 18$	6. $2 \times \underline{\quad} = 26$
3. $4 \times \underline{\quad} = 32$	7. $4 \times \underline{\quad} = 28$
4. $5 \times \underline{\quad} = 25$	8. $6 \times \underline{\quad} = 36$
