Ex.3. Read the text

Read and answer the questions.

The moon is not a planet. It goes around our planet earth. It's made of rock. There are seas on the moon but there isn't any water in the seas.

There isn't any weather on the moon. It isn't windy there and it never snows or rains. The moon is smaller than earth. Sometimes it looks big, sometimes it looks small. When it's big and round, it's called a full moon. When it's very small, it's called a new moon.

The first men on the moon were Neil Armstrong and Edwin Aldrin. They landed on the moon on July 20th 1969 and they walked around for two hours.

Ex.4. Answer the questions

- 1 What's the moon made of? It's made of rock.
- 2 Can you swim in the seas on the moon?
- 3 Does it rain on the moon?
- 4 Which moon looks bigger, a full moon or a new moon?
- 5 When did Neil Armstrong and Edwin Aldrin land on the moon?

Ex.5. Fill in the information

	Mercury	Mars	Saturn	Uranus
Made of	 rock	 rock	 gas	 gas
Temperature	 hot	 cold	 very cold	 very cold
Other information	It looks like the moon.	It's red.	It's got rings of ice.	It's got five big moons.

- 1 Uranus has got five big It's made of gas and it's
- 2 is a red planet. It's and it's made of rock.
- 3 looks like the moon. It is and it's made of
- 4 is and it's made of It's got rings of
