

Unit 5: Reading Exercise

1. The underline of each of the following words or phrases in the reading. Use your understanding of the words to write definitions.

Vocabulary	Definitions
Fossil Fuels	
Global warming	
Inflated	
Reduce	
Curving	
A rise	

2. Critical Thinking Discuss the questions.

- a. The article mentions fossil fuels as a major source of energy. What two other sources of energy are mentioned? How are they different from fossil fuels?

- b. Look at the list of the effects of global warming in the reading. What impact could they have on these aspects of your country's economy: tourism, food production, housing, and disaster relief?

3. Give a small explanation of the choices we can make to reduce the negative impact on the environment.
