.....

III. Read and decide if the statements are RIGHT, write R or WRONG, write W. If there is not enough information to decide, write DS for DOESN'T SAY.

FOUND ART

We often think of reusing and recycling as something we just have to do. But some people see it as a chance to create. Any object can be reused to make something amazing. Reusing is more than a way to save - it can help us think about things in a new and different ways.

Using found objects to make art is not new. *Found art* became popular in the 1900s. Found art made people think about the things around them in a different way. Many things could be made into art!

Today, many artists still create art from things they find. Sometimes they use things as they find them, and other times they make changes to the things they find. Sometimes they use rubbish. The artists put it all together to express their thoughts. We can enjoy their creativity and be amazed at the artists' skill. We can also be surprised by our feelings. Often, we can just appreciate the beauty or the humor. All these things make found art valuable in our lives.

1. Reusing and recycling are thought as something people have to do.
2. Reusing can help us think about things in a new and different ways.
3. It is brand new to use found objects to make art.
4. Famous artists and architects love the way to reusing objects to
create new items.
5. Artists always use things the same as they find them.
