How to play basketball

Written Production: Uses (applies)

I. Complete the missing chart:

Base	Past	Past participle
throw		thrown
be	was/were	
		gotten
give		

Base	Past	Past participle
foul		fouled
		passed
	scored	
play	played	

II. Now, watch the video and complete the missing data:

First thing any player needs to understand is how the game is _____ (play). Each team has five players. Every game starts with a tip-off. Basketball is a game of movement. Players run and bounce the ball. They dibble the basketball and then it is _____ (pass) to another player, so he/she can shoot for a goal and get a possible score. Points are _____ (get) when the ball goes into the basket and pass through it. Points can be _____ (score) in many different ways. Not every ball is worth the same number of points. 2 points are _____ (give) to any shot inside the arc. A long shot from outside the arc receives 3 points. If a player is _____ (foul), he goes to the free throw line; free throws are worth 1 point. The ball must be _____(throw) in a precise way to get a point. Teammates must communicate to each other to achieve their goals. Effort and great attitude are the keys to success.

You are doing a great job!
