Hello!

To on-line-complaint@hot.ee

Dear Sir,

I am writing to complain about a firm in our neighborhood. It is really dangerous for our region and our children. The firm is producing plastic items. As seen from their smokestack, the smoke is extremely dark black and looks really harmful. It is not only the smoke but, also the dirty waste from the discharge pipe. It can be seen easily by everyone. It poses a real danger. We, as a village habitants, want you to put an end to this hazardous pollution.

Thanks in advance
Ms. Michelle Sandra

a. Write a complaint email to the authorities about a situation in which you have been exposed to air or water pollution.

b. Write an e-mail to a person who lives abroad, and get information regarding his/her country's environmental health issues to compare with your country's environmental issues.

c. Create a hand-out to invite people by comparing past and future circumstances of your environment so as to take action for global warming consciousness.
