Activity 4

Interactive

T2-G8
Unit-4

Match the programming stages with the descriptions. This will help you plan what you need to do to finish the project.

Stages	Description
Creating	This is usually a description of the requirements. Your network and CAD model must meet the basic requirements to be successful.
Testing	Here, you will think about what you did. This will help you improve in the future.
Self-reflection	This is about deciding what you need to do and when you need to do it.
	You will also plan the network and show design ideas for the desk model.
Project brief	Here, you will create a network and a CAD model of a desk.
Planning	You do this part to check that the network and the CAD model meet the basic requirements.
