

Mr. Ramos drove 235 km from home to the airport. He returned by another route that was 42 km 100 m shorter. What was the total distance that Mr. Ramos traveled?

Convert the following:

235 km =                      m

42 km 100 m =                      m

235, 000 m - 42, 100 m =                      m
