

# 1- Choose the correct answer:

1- This is a (diamond – circle – triangle).

2- The (square – rectangle -diamond)'s got four sides. They're all the same.

3- The (rectangle - triangle -circle) hasn't got sides and it's smooth and round.

4- The (triangle - rectangle – diamond)'s got two sides, two long and two short.

5- The (square – rectangle– triangle)'s got three sides.
