D-What a wonderful forest!	E-The way back home	

1 ____

When Cathleen woke up in the middle of the night, at first she didn't know where she was. It took her a moment to remember that the night before her boyfriend Roger and she had got lost on the way back home after visiting some friends. On the way back, Roger suggested taking a short cut through a forest. He said it was a beautiful route and they would get home much faster that way, so she had agreed.

2 ____

It was indeed a beautiful route. The forest was very peaceful and green with enormous, ancient trees and wonderful flowers. They felt very happy and decided to get out of the car and explore it a bit. They followed a path for some time and got to a small river with crystal clear water. They were sitting on the river bank when they heard the sound of distant thunder, so they thought it was time to go back to their car.

3 ____

That's when they realised they were in big trouble! The way back to the path was gone! They couldn't find it any more! Roger thought that they should go to the left, but Cathleen thought they should go right. The noise from the storm was coming closer and closer and it was getting darker, too. They decided to follow Roger's idea and headed left into the forest.

4 ____

Cathleen was getting scared, their mobile phones didn't work, the temperature was dropping and it was getting quite cold in the dark forest. Soon, they couldn't see well enough to walk and the rain started coming down, too! It was then that Roger noticed a small cave between two trees. 'Let's get in there to wait for the rain to pass,' he said. And that's what they did. They waited and waited but it kept raining hard. Eventually Cathleen fell asleep and a little later Roger did, too.

5 ____

So now Cathleen was wide awake in the cold, dark cave, trying to hear and see what had woken her up. Roger was lying next to her fast asleep. She was really scared and didn't know what to do. 'Wake up!' she whispered to Roger, 'I think someone is in the cave with us!' As if in slow motion, she saw something move at the back of the cave. Was it a bear?
