Week 9 – Revision Week

Drag and arrange these sentences in the correct boxes.

How to save my Roblox.
We should reduce the energy use so we can save more money and help save the environment from air pollution.
We should stop littering and always throw our rubbish in the rubbish bin.
We should plant more trees. Trees provide food and oxygen. They help save energy, clean the air and help combat climate change.
We should apply 3R's in our daily lives. It helps save landfill space by keeping useful materials out.
We should recycle our waste to save more resources and send less rubbish to the landfills.
How to save the earth.
We should bring a reusable shopping bag instead of using a plastic bag to reduce the usage of plastic.
We should conserve water. The less water we use, the lesser the runoff and waste of water.

Every 22 April people around the world celebrate 'Earth Day' to help raise global awareness for protecting the planet. So, write a leaflet on how to save the earth.

Leaflet
