

Complete the following paragraph about Huda using the words from the boxes below.

care

difficult

hacks

great

qualities

My name is Huda. I'm a nurse in ABC Hospital. I think I've been doing a job, overall.

I like taking of people. It's why I became a nurse and take great care of patients. It's one of my best but there is one thing I would like to work on. It's spending too much time with each patient. I find it to leave demanding patients. So they take extra attention and consume more time. I really need to train on that can help me to reduce this.
