

MULTIPLICAR Y DIVIDIR POR 10, 100 Y 1000 CON DECIMALES

Recuerda que si un número no lleva coma física, estará después de las unidades. (D = decenas, U = unidades y d = décimas).

Ejm: 6 3 $\Rightarrow$ 6 3,0

Sin coma		Con coma		
D	U	D	U	d
6	3	6	3,	0

1. Resuelve las siguientes multiplicaciones.

$7 \times 10 = \dots\dots\dots$

$12 \times 1000 = \dots\dots\dots$

$160 \times 100 = \dots\dots\dots$

$23 \times 10 = \dots\dots\dots$

$714 \times 10 = \dots\dots\dots$

$9 \times 1000 = \dots\dots\dots$

$47,25 \times 10 = \dots\dots\dots$

$91,4 \times 10 = \dots\dots\dots$

$4,92 \times 100 = \dots\dots\dots$

$68,33 \times 1000 = \dots\dots\dots$

$58,751 \times 10 = \dots\dots\dots$

$0,683 \times 100 = \dots\dots\dots$

2. Resuelve las siguientes divisiones.

$15000 : 100 = \dots\dots\dots$

$7000 : 10 = \dots\dots\dots$

$8500 : 100 = \dots\dots\dots$

$100000 : 1000 = \dots\dots\dots$

$25000 : 1000 = \dots\dots\dots$

$45000 : 10 = \dots\dots\dots$

$61,7 : 10 = \dots\dots\dots$

$171,58 : 100 = \dots\dots\dots$

$4,25 : 10 = \dots\dots\dots$

$5651,7 : 1000 = \dots\dots\dots$

$8,53 : 100 = \dots\dots\dots$

$72,5 : 10 = \dots\dots\dots$
