

## Numbers in Sports

You are going to hear a conversation between two people where they mention different numbers in connection with different sports. Write the correct answer to each of the questions below (you can either spell them out or use numerals).

1. Women get less prize money than men for the World Football Championship. What percentage of the men's prize is the women's prize?	
2. How much money did the French men football champions win last year?	
3. How many cricket fans are there worldwide?	
4. How many spectators go to see the Tour de France?	
5. How long was the longest Wimbledon final?	
6. How much money in pounds was Neymar transferred for?	
7. How far is Tokyo from London?
