listening to music.

My favourite sport is rollerblading  
and my favourite food is pizza.

My best friend is Hannah.

@Taken from liveworksheets by Pilaratienzarfuentes

## SECTION A

Read the text.

### Crocodiles

The largest reptiles are crocodiles. Reptiles have smooth scales. They have cold blood. Crocodiles can be green, brown or grey. **They<sup>1</sup>** have strong jaws and sharp teeth which they use to catch and kill their prey. They have forked tongues. Crocodiles have short legs with webbed back feet to help them swim. They have sharp claws on their feet. They have long tails.

Crocodiles are carnivores. They eat fish, birds and animals. Crocodiles live near water.

Most crocodiles live near rivers or swamps. Some crocodiles live near the sea.

They have the strongest bite of any animal in the world. Crocodiles have excellent eyesight even at night time.

Most kinds of crocodiles are endangered. We must all work together to protect the crocodiles that live in Borneo. Some people kill crocodiles for their skins. **We<sup>2</sup>** must not hunt or kill crocodiles.

A. Look at the words that are in bold and numbered. What /who/what do they refer to, **click the right answer**.

1. They - \_\_\_\_\_
  - a. Crocodiles
  - b. Crocodile

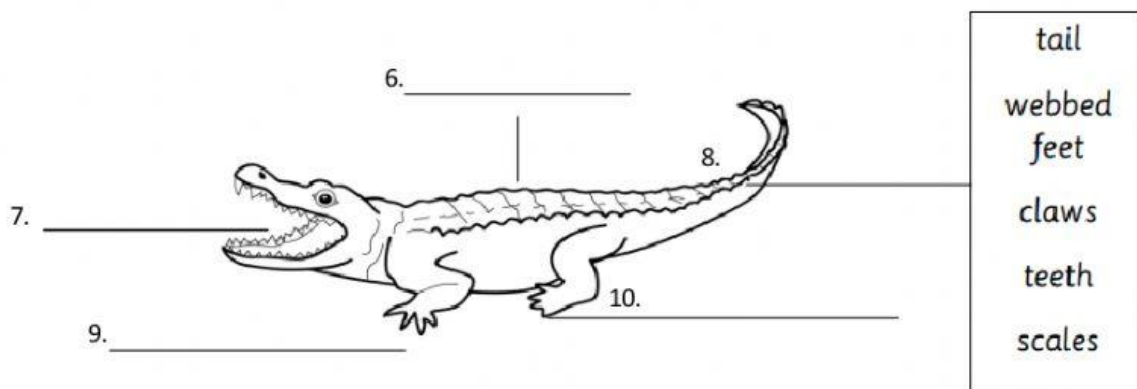

2. We - \_\_\_\_\_
- a. Crocodiles
  - b. People

B. Choose the correct meaning.

---

15. In your opinion, what do people use crocodile skins for?

---

(5 marks)

## SECTION B

Read the passage carefully and complete the graphic organizer below.

### A Water Monitor

A water monitor is a large lizard. It is a reptile. It lays eggs and has cold blood.

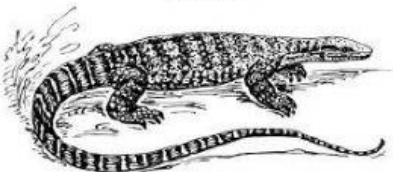

A water monitor has smooth scales on its body and can be brown, green or grey in colour. It has a strong tail and strong legs which help it swim very fast. It has sharp claws to protect itself. It has a long neck and a strong jaw to kill its prey. It has a long-forked tongue. A male water monitor grows much larger than a female.

A water monitor eats rats and mice, but it also eats fish and fruit.

A water monitor lives in the jungle near fresh water.

A water monitor is a special animal. We must all work together to protect the water monitors that live in Borneo. Sometimes people leave rubbish in the jungle. A water monitor might try to eat the rubbish and get sick. If we see a water monitor we must leave it alone. We must not hunt or kill it.

### Title : A water monitor

<p>Classification: (What is it?)</p> <p>16. _____</p>	<p>Diet: (What does it eat?)</p> <p>17. _____</p> <p>18. _____</p>
<p>Picture</p> 	
<p>Appearance/Description: (what does it look like?)</p> <p>19. _____</p>	<p>Habitat: (where does it live?)</p> <p>20. _____</p>

(10 marks)

## SECTION C
