B. Read the text below and answer the questions!

For some students, getting a job while they are still in high school is not an option. Working seems to be a necessity for them, as they might not get any help from their parents to pay for tuition or for living expenses. Therefore, they may not have any other choices but to accept a part-time job. However, working is not the only option if there are some better alternatives to help them.

There are several ways that students can attempt to get the necessary funds that they need, to pay for tuition, and living expenses. Student loans, grants, and scholarships are the best alternatives that students should turn to. Instead of working part time while going to school, attempting to win scholarships will not take much effort.

They had better take the challenge to compete for scholarships than working. Moreover, it motivates students to keep striving to perform their best at schoolwork.

On the other hand, not many students have the opportunity to compete winning the scholarships. Taking the same efforts, students with average grade might have less opportunity to win.

Therefore, working through school is a valid option. Finding a way to budget your time between school and work can take some effort, but it's much easier than most students think. All the students need is discipline. With minimal effort, students should have no trouble striking a balance between work and school.

The bottom line is that working part-time while going to school can easily be done, if students are disciplined and budget their time accordingly. However, there are actually some better ways to overcome students' financial problems.
