MS. REEM MOHAMED

ENG 102. UNIT 9 - DESCRIBING A PROCESS - MAKING SOAP BARS

Put the steps in the correct order.

..... Next, fragrance and colors are put.

..... In the first step, oils and caustic soda are added.

..... The mould is heated for 24 hours and is covered with a towel.

..... The small soap bars are cured for four weeks and then are sold in the market.

..... The mixture is then poured into a mould.

..... The bar of soap is cut into several smaller bars.

..... The mixture is blended with an electric blender.

8. You got it! The soap is at your home.
