### PART 1 - Complete the gaps with the future form ['ll / will / will not + verb]

I'll go, I'll go, I'll go, I'll go for you  
I, I'll fight, I'll fight, I'll fight for you  
I \_\_\_\_\_, I \_\_\_\_\_, I \_\_\_\_\_, I \_\_\_\_\_ for you  
I will, I will, I will

I'll go, I'll go, I'll go, I'll go for you  
I'll fight, I'll fight, I'll fight, I'll fight for you  
I \_\_\_\_\_, I \_\_\_\_\_, I \_\_\_\_\_, I'll die for you  
I will, I will, I will

And if I die, I'll die, I'll die alone  
On some forgotten hill, abandoned by the **mill**  
All my blood will spring and **spill**  
I \_\_\_\_\_ the air and be still

You'll wait with the star from a dream  
And know that I am gone  
You \_\_\_\_\_ it in your heart  
But not for very long

You \_\_\_\_\_ each day as planned  
Your will is your command  
And stand each Sunday  
A **hymnal** steady in your hand

And you \_\_\_\_\_ to yourself  
The rising falling melody  
That you could never read  
Without the choirs' **lead**  
Still alone and lost in deep  
And your soul \_\_\_\_\_ free

I will go, I will go, I will go  
And in wars waters I will **wade**  
And I \_\_\_\_\_ if I remorse or **regret**  
The fairness of our trade

For you to live, I took your place  
**A deal** was made and I was paid  
And the goal as I was told  
Was a place where my body could be laid

And we \_\_\_\_\_ your life  
And I own in better homes surrounded  
By your peers, without suffering or fear  
Grandchildren far and near  
And none will shed a tear  
For the love no longer here

I'll go, I'll go, I'll go, I'll go for you, I will  
I'll fight, I'll fight, I'll fight, I'll fight for you  
I will, I will, I will (2x)

And if I die, I \_\_\_\_\_, I \_\_\_\_\_ alone like Jesus on a cross  
My faith cannot be **tossed**  
And my life \_\_\_\_\_ lost  
If my love comes across
