SUBTRACTION WITH ZERO

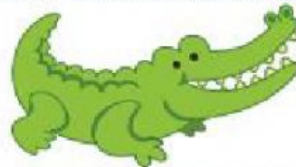

Look at the pictures. See what happens when you subtract 0 things.

1

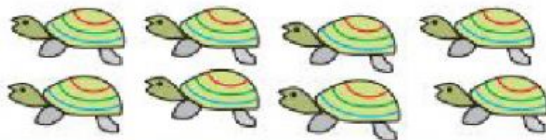

$$3 - 0 = \square$$

2

$$1 - 0 = \square$$

3

$$8 - 0 = \square$$

4

$$9 - 0 = \square$$

5

$$5 - 0 = \square$$

6

$$2 - 0 = \square$$

When we subtract 0 from a number, it stays the same.
