

Unit 7A

"The Wacky Warehouse"

Read the text and answer the followed questions.

If you are looking for an exciting meal and a fun dining experience, you must visit "The Wacky Warehouse" which has branches around the UK, but my favourite is the one in London. It offers a large variety of traditional British food, its open every day from 10 a.m. to 12 a.m.

The restaurant has a giant indoor barn full of fun play equipment for children. The décor is modern, bright, and colorful with a relaxing, cozy atmosphere. The staff are friendly and polite, they hold childcare qualifications, too.

The service is fast, and the prices are reasonable and believe me the food worth it. The food is so delicious, and their choice of food is quite wide, and you can find almost everything you want. For starters you can have cheese fingers, fries, and sausage rolls. As for the main course you can order mixed grills, chips and fish, or burgers. For desserts you can have a chocolate cake or cheesecake and many fresh or soft drinks.

On the whole, I love The Wacky Warehouse restaurant so much because of its' simple and classic atmosphere with a very soft musical background that adds special effect to your visit , as well as the delicious food. I recommend you visit this restaurant as it will be an unforgettable experience.

1.The review overall is-----:
