

Name: \_\_\_\_\_ Grade & Section: \_\_\_\_\_

**Objective:** Finds the perimeter of triangles, squares, rectangles, parallelograms, and trapezoids

**Let's have a brief study first on what is a perimeter!**

Image 1

is the distance all the way around the outside of a shape

**Formula of a Perimeter in a Triangle**

Equilateral Triangle	Isosceles Triangle	Scalene Triangle
$P = 3l$	$P = 2l + b$	$P = a + b + c$

Image 2

**Formula of a Perimeter for a Square**

Since it is square  
all sides are equal in length  
**Perimeter (P) =  $a+a+a+a$**

**$P = a+a+a+a$**

Example:  
if  $a = 3$  units then  
Perimeter (P) =  $3+3+3+3=12$  units

Image 3

**Formula for a Perimeter of a Rectangle**

Diagram of a rectangle with length = 5cm and width = 3cm.

$P = 5\text{cm} + 3\text{cm} + 5\text{cm} + 3\text{cm} = 16\text{cm}$

Formula:  $P = 2l + 2w$

$P = 2(5\text{cm}) + 2(3\text{cm})$

$P = 10\text{cm} + 6\text{cm}$

Image 4

**Formula of a Perimeter of a Parallelogram**

Diagram of a parallelogram with side lengths 16 and 20.

$P = 2w + 2l$  Perimeter of a parallelogram.

$= 2(16) + 2(20)$  Substitute 16 for w and 20 for l.

$= 32 + 40 = 72$  units

image 5

**Formula of a perimeter of a Trapezoid**

Diagram of a trapezoid with side lengths 3m, 4m, 3m, and 5m.

Find the perimeter:

Perimeter = sum of all of the sides

Perimeter =  $3 + 4 + 3 + 5$

Perimeter =  $7 + 8$

Perimeter = 15

Step 1: Find the lengths of all of the sides.

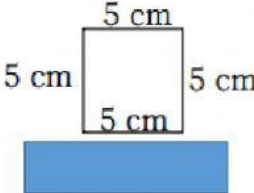

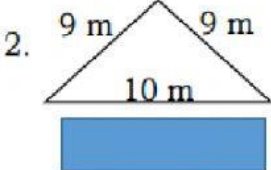

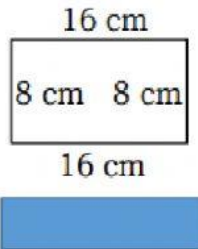

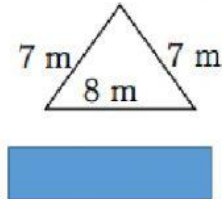

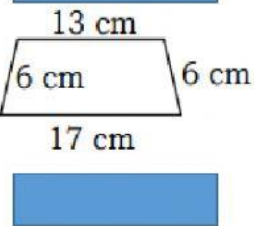

Step 2: Add.

Step 3: Write the units.

image 6

Let's Find out how deep is your understanding about our lesson by answering the following!

Direction: Find the Perimeter of each figure.

1. 
2. 
3. 
4. 
5. 

B. Direction: Read each problem carefully. Then solve for the perimeter. Choose the letter of the correct answer. Write answer on the box provided.

1. It is a Christmas Holiday and Rona wants to put a lights around the TV. Look at the measurements. What length of lights does she need?

- A. 800 cm    B. 1000 cm    C. 700 cm    D. 900 cm

2. One side of an equilateral triangular park measures 20m. What is the perimeter of a triangular park?

- A. 20 m    B. 40 m    C. 60 m    D. 30 m

- ☐ 3. Jonel enclosed his vegetable garden with a fence. The four sides of the garden measures 10, 15, 17 and 9 meters. How long will be the fence?  
A. 25 m                      B. 32 m                      C. 42 m                      D. 51 m
- ☐ 4. One side of a square playground of Bacon West Central School in Sorsogon City, measures 35 meters. How many meters of chicken wire are needed to enclose the playground?  
A. 70 m                      B. 105 m                      C. 140 m                      D. 175 m
- ☐ 5. Josel bought a lot whose sides measure 23 m, 18 m, 23 m, and 18 m. What is the perimeter of the lot he bought?  
A. 82 m                      B. 75 m                      C. 54 m                      d. 41 m
